

Run race-ready

Rev up your
shop's performance
with Castrol®.

Buckle up and take your machining operations into the winner's circle with **Castrol's full lineup of high-performance metalworking coolants**. Engineered for precision, built for durability, and proven to go the distance, Castrol® coolants help your shop run faster, cleaner, and more efficiently — lap after lap.

Test drive the Castrol® advantage

For a limited time — from **June 15 through September 30, 2026** — we'll provide enough free test coolant for a two-month trial in one machine. Love the performance? We'll cover the initial fill at no cost when you switch the remaining machines (minimum 10 total) to Castrol®.

Take control of the track

Boost quality. Extend tool life. Protect your equipment. Lower your long-term operating costs.

Castrol® gets you across the finish line — every time.

Start your engines—the checkered flag drops soon.
