

# ***DELIVER A MORE SUSTAINABLE FUTURE***

## **CASTROL® DURATEC™ ES 15W-40**

*Full-synthetic technology for extended drain intervals of up to 1,200 hours\* in modern natural-gas engines*

\*Extending oil-drain intervals should only be done in conjunction with a comprehensive used-oil analysis program like Castrol Labcheck.

**Castrol**  
**Duratec ES**  
Synthetic Natural Gas Engine Oil

## SAFELY EXTENDS DRAIN INTERVALS WHILE KEEPING ENGINES CLEAN

Castrol® Duratec™ ES 15W-40 is specifically formulated for modern natural gas engines with high-quality synthetic base oils that take performance to the next level – enabling drain intervals of up to 1,200 hours.

Although natural gas engines burn cleaner, they also burn hotter, making acid neutralization and oxidation and nitration control critical in protecting your engine from deposits and wear over the useful life of the oil.

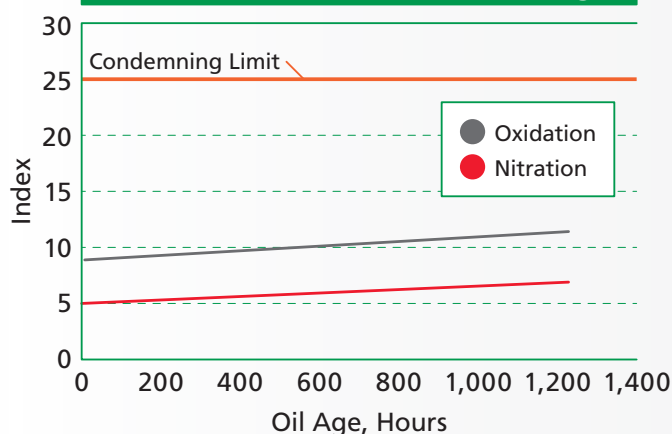

Duratec ES meets the latest Cummins CES 20092 specification and is backwards compatible.

### SUPPRESSES OXIDATION AND NITRATION

Higher combustion temperatures can lead to increased oxidation and nitrogen oxide formation. Duratec ES 15W-40 natural-gas engine oil suppresses and controls oxidation and nitration throughout extended drain intervals, preventing sludge, varnish, plugged filters, and deposits.

### DURATEC ES 1,200-HOUR DRAIN

#### Oxidation & Nitration vs. Oil Age

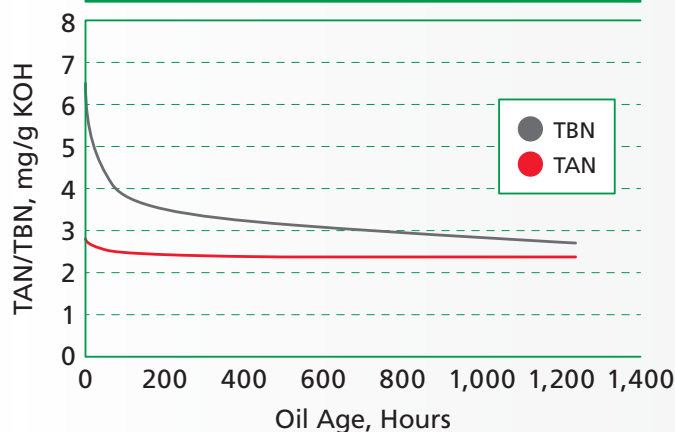

### OUTSTANDING ACID NEUTRALIZATION

Acid formation can lead to corrosive wear. Duratec ES 15W-40 has outstanding combustion acid-neutralization capability throughout extended drain intervals, which helps prevent corrosion and protects critical engine parts.
