

THE #1 GLOBAL MOTORCYCLE BRAND

For 125 years Castrol has pioneered the development of high performance motorcycle oils. Today, Castrol continues that legacy, working side by side with premier motorcycle manufacturers, world-class race teams and riders of all types to develop and market **motorcycle, snowmobile and ATV** lubricants.

Only Castrol's motorcycle oil formulations feature **TriZone™ Technology** that simultaneously protects your motorcycle engine, clutch and gear box for optimized performance and enhanced engine life.

OPTIONS TO MEET THE NEEDS OF DIFFERENT RIDERS

	 Castrol <i>POWER1</i>	 Castrol <i>POWER1</i> V-TWIN	 Castrol <i>Actevo</i>
▶ THE RIDER	The Accelerator	The Cruiser	The Guardian
▶ ENGINE TYPE	High Performance	Air cooled V-Twin	4 Stroke
▶ BASE OIL TYPE	Full Synthetic	Full Synthetic	Synthetic Blend
▶ REASON TO BELIEVE	Power Release Formula for Superior Acceleration	Tested in Harley Davidson Engines	Actibond™ Molecules dramatically extend engine life

Discover which Castrol Motorcycle engine oil and shaft drive gear lubricants are right for your bike by using our new

#1 MOTORCYCLE INSURER

Castrol, the global leader in motorcycle lubricants is proud to be an official sponsor of Progressive, the #1 motorcycle insurer in the US.

AN IN-DEPTH LOOK AT CASTROL'S PRODUCT OFFERING

Castrol® POWER1® 4T

Formulated with TriZone™ Technology for bikers who love the exhilaration of riding.

- Exclusive TriZone™ Technology protects the engine, clutch and gearbox.
- Proven to deliver superior acceleration at the touch of the throttle.
- Advanced, premium full synthetic with race derived technology
- Also suitable for use in ATVs/UTVs
- Available in 10W-40, 10W-50 and 5W-40 viscosity grades

Exceeds API SN and JASO MA2 standards

Castrol® POWER1® V-Twin 20W-50

Full synthetic 4-stroke motorcycle oil designed to deliver ultimate performance in modern V-Twin engines, transmissions and primary chain cases.

- Engineered and tested to ensure performance in Harley-Davidson and today's modern V-Twin motorcycles
- Provides excellent protection against thermal and viscosity breakdown at higher temperature generated by air cooled, V-Twin engines.

Exceeds API SN and JASO MA2 standards

Castrol® Actevo®

Formulated with Actibond™ Molecules that cling to engine parts, even when the engine is switched off, to provide a protective layer from the moment you start your engine.

- Synthetic blend formulation provides superior protection from high temperature carbon deposits, enabling the engine to retain its performance for longer
- Clinging action provides up to 50% wear reduction in comparison with other JASO MA2 oils to dramatically increase engine life*
- Also suitable for use in ATVs/UTVs
- Available in 10W-40 and 20W-50 viscosity grades

Exceeds API SL and JASO MA2 standards

ANCILLARY PRODUCTS

Castrol® SYNTRAX® Limited Slip 75W-90

A breakthrough in lubrication technology.

- Full synthetic formula provides protection, durability and performance that far surpass conventional API GL-5 and MT-1 gear oils.
- Superior high and low-temperature performance
- Incredible thermal stability and unsurpassed shear stability allow for superior wear protection

Castrol® Axle Limited Slip 80W-90

A multi-grade gear lubricant that provides excellent performance in manual transmissions and differentials. Meets full service requirements of conventional and limited slip differentials.

- Durability for maximum performance under severe driving conditions
- Superior high and low-temperature performance
- Incredible thermal stability and unsurpassed shear stability allow for superior wear protection

Castrol® React™ SRF

Racing Brake Fluid

The ultimate racing brake fluid.

- Unique silicon ether technology absorbs less water than conventional glycol ether fluids and prevents the fluid's high-temperature performance from deteriorating
- Its high boiling point, ability to withstand extreme temperatures and superior resistance to the effects of absorbed water have established Castrol React SRF Brake Fluid as the premier fluid for the hydraulic brakes used in all forms of motorsport and racing
- Race-tested with Honda MOTO GP team

*Versus JASO MA-2 oil without ActiBond™ in cam wear index test
