

Castrol® premium diesel engine oils

Castrol® VECTON® Long Drain 5W-30 CK-4/SN

Castrol VECTON Long Drain 5W-30 CK-4/SN with unique SYSTEM PRO TECHNOLOGY™ is an advanced full-synthetic, heavy-duty engine oil. Recommended in diesel engines where API CK-4/SN is required. VECTON Long Drain is engineered to deliver longer oil life, which can enable extended service intervals even under severe operating conditions.

Real-world challenges

New technology developments in diesel engines have led to lower emissions in heavy-duty vehicles. These technology advances result in increasing levels of torque within the engine, which leads to higher pressures and temperatures. Castrol VECTON Long Drain 5W-30 CK-4/SN adapts to increased pressure and temperature with its strong shear stability and proven oxidation performance while delivering proven fuel economy benefits.

Maximizes drain intervals. Maximizes profits.

Castrol® VECTON® advantages

- **System Pro Technology:** Delivers a 45% extra performance reserve* that fights oil breakdown by helping to control oxidation, reduce deposits and neutralize harmful acids
- **Extended Drain Intervals:** Reduced maintenance costs, increased vehicle uptime, and improved operational efficiency**
- **Fuel Economy:** Due to the high quality, full-synthetic base stocks in its formulation, Castrol VECTON Long Drain 5W-30 CK-4/SN can help improve fuel economy without compromising engine.¹
- **Lower Total Cost of Ownership:** By extending oil life and reducing maintenance frequency — Castrol VECTON helps you maximize savings and keep your fleet running smoothly

* Up to 2% improvements vs SAE 15W-40 oil in class-8 diesel engine bench testing; actual results will vary depending upon vehicle type, load, and other driving conditions.

¹ Average of percentages by which VECTON exceeds the industry standard requirement limits in API CK-4 and ACEA E9-16 engine tests for viscosity maintenance, heat protection, deposit control, minimum oil limits and acid neutralization.

Drain intervals up to 80,000 miles or 1,000 hours**

** Extending oil drain intervals should only be done in conjunction with a comprehensive used oil analysis program like Castrol® Labcheck®.
