## SCORE REWARDS

The Installer must purchase a minimum of 1,000 gallons per year (250 gallons per quarter) of Castrol product to qualify for the new account bonus.

The New Account Bonus will be paid upon a new accounts annualized volume after a 92 day verification period (92 days from the first invoice date) and will remain eligible to earn a new account bonus for a period of 12 months from the first invoice date. Example: If a new account purchases a minimum of 250 gallons, but not more than 749 gallons, after the 92 day verification period, the DSR user will be rewarded the corresponding bonus of 100,000 points. If the account does not reach this threshold within the first 12 months of purchases, the bonus will not be paid. Volume greater than or equal to 750 gallons over a 92 day verification period will award the program participant with the appropriate bonus point amount shown in the corresponding value listed in the Program Bonus and Product Values section of these Terms and Conditions.

Accounts that have been obtained through distributor conversion do not qualify as a "new account".

Large national accounts with multiple locations are subject to approval by Castrol and qualification for program rewards is at the sole discretion of Castrol and BP Lubricants USA

**EXCLUSIONS:**

- PCO and Specialty National (DFF) Accounts\*
- HD/IND Specialty National (DFF) Accounts
- HD/IND Specialty General Industrial Business
