

Castrol GTX High Mileage

Formulated with Phosphorus Replacement Technology™ to help prevent emission system failure.

Castrol® GTX® High Mileage helps extend vehicles life and can help increase your profits.

Catalytic converter failure is a frequent and costly repair for high mileage vehicles and one of the leading causes why a vehicle fails inspection or a check engine light comes on – forcing consumers to fix or replace their vehicle.

Provides advanced protection

The advanced formula with patented Phosphorus Replacement Technology™ enables Castrol® GTX® High Mileage to have significantly lower levels of phosphorus while still maintaining robust levels of wear protection. It helps prevent emission system failure and extend vehicle life. Compared to conventional and even other high mileage oils, Castrol® GTX® High Mileage’s advanced formula helps to better preserve the emission system and still deliver unsurpassed protection against sludge, wear and oil burn-off.* **No other high mileage oil can make that claim.**

| Features | Benefits | Advantages |
|--|--|---|
| Phosphorus Replacement Technology™ API SQ/ILSAC GF-7 ^A | Helps prevent emission system failure which helps extend vehicle life. | Helps to prevent catalytic converter and emission system failure Superior dispersancy that fights sludge build-up Exceptional oil burn-off protection exceeding industry standards** Seal conditioners to help prevent leaks |

Significantly Increase Your Profits with Ease

Seventy-five percent (75%) of vehicles on the road today have over 75,000 miles on them. Your profits can grow significantly by simply recommending the oil that is formulated for the majority of the cars that come to your location.

Castrol® GTX® High Mileage’s advanced formula provides you with a compelling and differentiated reason why consumers should choose Castrol® GTX® High Mileage vs. conventional or other high mileage oils.

To help your customers prevent emission system failure and extend the life of their vehicle, recommend Castrol® GTX® High Mileage.

Castrol® GTX® High Mileage is available in SAE grades

5W-20, 5W-30, 10W-30, 10W-40 and 20W-50.

* vs leading conventional oils, 5W-30 tested
** Based on API and ACEA volatility specifications

^AILSAC GF-7 is the latest category of passenger vehicle engine oil, delivering advanced performance in fuel economy and wear protection. Lubricants meeting ILSAC standards are required by many OEMs, including Acura, Honda, Hyundai, Infiniti, Kia, Lexus, Mazda, Mitsubishi, Nissan, Subaru, Suzuki and Toyota amongst others. Always refer to the vehicle owner’s manual to ensure the correct lubricant for your vehicle.
