

# ULTRACLEAN

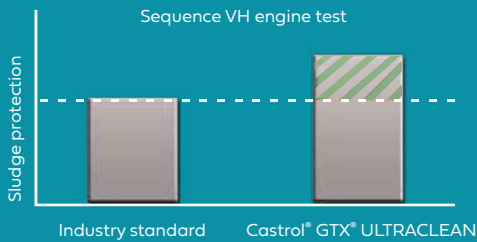

No oil keeps engines cleaner

## Castrol® GTX® ULTRACLEAN is our cleanest GTX® ever.

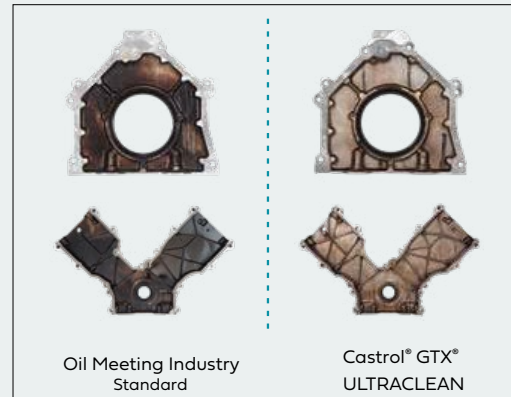

The modern world can be challenging for vehicle engines. Poor fuel quality, heat and tough driving conditions can lead to sludge that may shorten engine life. But, Castrol® GTX® Ultraclean can help fight these challenges by providing 1.4X better sludge protection\* than the latest industry standard. Here's how:

1. **Double Action Formula** cleans away old sludge\*\* and protects against new sludge formation.
2. **Synthetic Blend Technology** combined with our proprietary "sludge buster" has demonstrated superior sludge performance.
3. **Up to 1.4X Better Sludge Protection versus Tough Industry Standards**

### Passing the toughest tests

When tested in the Sequence VH engine test, Castrol® GTX® Ultraclean performed superbly – engine parts were noticeably cleaner compared to an oil that simply meets industry standard. Cleaner engine parts help extend engine life.

Castrol® GTX® Ultraclean is available in Bulk, Drums, Totes and Pails and is engineered to meet the following industry/OEM specifications

| Specifications                | SAE OW-20 | SAE 5W20 | SAE 5W- 30 |
|-------------------------------|-----------|----------|------------|
| API SQ                        | X         | X        | X          |
| ILSAC GF-7 <sup>^</sup>       | X         | X        | X          |
| Ford WSS-M2C962-A1            | X         | —        | —          |
| Ford WSS-M2C960-A1            | —         | X        | —          |
| Ford WSS-M2C961-A1            | —         | —        | X          |
| Chrysler MS-6395 <sup>†</sup> | X         | X        | X          |

\* Compared with API SP Seq. VH sludge test limit  
 \*\* When tested in engines with high level of sludge  
 † Meets the engine test requirements of MS 6395

<sup>^</sup>ILSAC GF-7 is the latest category of passenger vehicle engine oil, delivering advanced performance in fuel economy and wear protection. Lubricants meeting ILSAC standards are required by many OEMs, including Acura, Honda, Hyundai, Infiniti, Kia, Lexus, Mazda, Mitsubishi, Nissan, Subaru, Suzuki and Toyota amongst others. Always refer to the vehicle owner's manual to ensure the correct lubricant for your vehicle.
